

Why a GIG? Why Not?

With up to 1000 megabits per second for both download and upload speeds, a Gig provides enough bandwidth for everyone in your home and all of their devices. Sign up during pre-registration and lock in your price for life* for **ONLY \$74.95/month!**

What Can All Of That Bandwidth Do For You And Your Family?

How about an AWESOME online experience!

- There is more than enough bandwidth to support multiple activities on multiple devices with no lag time. With Mid Century Fiber Gig service there is plenty of bandwidth to go around.
- Stream movies, videos and TV shows. Not only can you stream video content in HD with Mid Century Fiber, you can do it at amazing speeds. This means less time waiting and more time enjoying!
- Video conference with multiple people at the same time without disconnects or frozen pictures in high quality with Mid Century Fiber.
- Experience online gaming at a speed you never thought possible with little or no lag time. Only see "GAME OVER" when the game is actually over with Mid Century Fiber.
- Download and upload files, photos and videos at incredible speeds. With Mid Century Fiber high quality photos that used to take minutes to hours to upload/download take just seconds, depending on file size.

Eliminate the WAIT... Sign Up for Mid Century Fiber Gig Service Today!

A Few Little GigBits

Did you know with Mid Century Fiber Gig service you can...

- Stream multiple 4K Ultra HD videos (1080p) simultaneously, with little or no buffering, and still have enough bandwidth for other family members to enjoy their online activity.
- Transfer data over the Internet faster than you can transfer data to a thumb drive.
- Download data as fast as many computers save it to the hard drive.
- Download an entire 14GB movie in a little under 2 minutes!
