Enter your personal information. The password you enter here will be used to access the app.

4

11:53

Set up router

Welcome to Mid Century Fiber! To get started select your router model

Model

Select GigaSpire or GigaPro model

Start Set Up

My router is already set up

Select "My router is already set up".

5

9:41

Scan device

Scan the QR code on the back of your router to continue

Manually Enter Device Details

Scan the QR code on the bottom of your router. Tap the QR code that appears within the app. (You will be asked to allow access to your camera). Select OK.
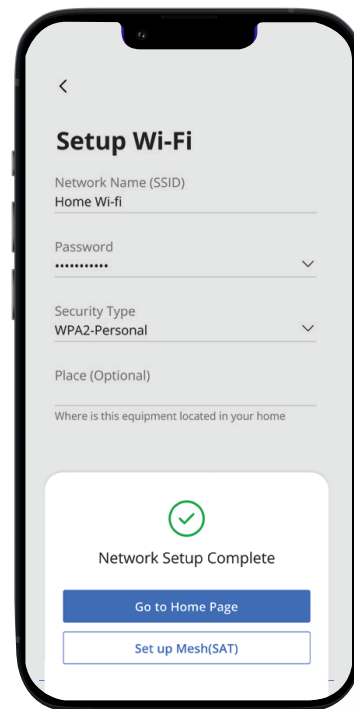

6

Now that your new router is set up, you can set up your Wi-Fi network.

7

Click "Go to Home Page."

APP FEATURES:

The Mid Century Fiber app helps take your home network management to new heights with so many features to explore.

- Change or reset your Wi-Fi network name and password.
- See devices connected to your Wi-Fi.
- Run a speed test.
- Create a temporary or shareable guest network.
- Block viruses, intrusions, and threats with ProtectIQ Network Security.
- Enhanced content controls, restrictions, time limits, and traffic prioritization with ExperienceIQ (included with Ultimate SmartNet Wi-Fi).
- & Much, much more!

"I love the Network Map feature. Seriously, it's a game changer. With just a few taps, I can visualize how all my devices are connected across the network from a single dashboard on my mobile device."
